SEPTEMBER 2024 EDITION

This and That

I thought I'd take the opportunity to answer a few questions that people may be pondering.

What is going on at the driving range?

Many people ask why we don't have top quality range balls at our driving range and the answer is simple. THEY GET STOLEN. After many interventions of people coming in after dark and collecting range balls and making off with them we decided to block the entrances so that we can limit access to only where we have cameras that can pick up licence plates. We currently spend approximately \$5000.00 per season to upgrade range balls only to have them regularly stolen along with the baskets that we purchase.

We are looking at soon installing gates along with a fence that will block off the range parking at night. So when the question comes up, why is everything so expensive? That gives you some insight into the issue.

Who is doing such a great job on the gardens at The Greens this year?

That lady's name is Sheila Muise and we were lucky to have her this year. Sheila's husband is Tim Muise who works afternoons in our pro shop. Sheila has a long history in the landscape trade and has been a huge addition to Als crew.

Benches and Garbage cans.

We believe that they have been a great addition to the course and in the next few months you will see Don Erwin building bases for each one and Sheila will be adding plants to each station providing a nice clean, and aesthetically pleasing area. These are memorial benches that can be dedicated to a loved one. Just contact me or Jacob for information if you desire.

The New Building

Construction is progressing along and hopefully we will see continued progress through the fall with a projected opening date of November 1st. The building will house the simulators and practice facility through the winter as well as other events such as Christmas parties. Emilie would be happy to help you if you were looking to book an event.

How many leagues do we host at The Greens ?

There are Eight leagues at the Greens. There is The Greens Mens league on Mondays, The Greens Ladies league on Wednesdays, The Senior Mens on Tuesday Morning, The Senior Ladies on Wednesday mornings, The Triple XXX which is an Esso refinery based league on Tuesday. Also on Tuesdays there is a Mulligan league which is a group from the Norfolk area. On Thursdays we host both The LEW league which is a Stelco based league and the CGC league which is for employees of the Canadian Gypsum plant outside Hagersville.

Is The Bistro open to everyone?

Absolutely! Many people believe that The Greens is a private club and nothing could be further from the truth. Everyone is welcome to come and dine at The Greens and we encourage you to spread the word about our food and service. We are very proud of both!

ON THE COURSE AT THE GREENS AT RENTON

September is here, Summer is almost over, and Fall is just around the corner - my favourite time of the year for golf!

The weather in August was all over the map and we had no consistent weather pattern, it was hot and dry for a week, then wet and muggy for a week, then cool and wet. Not great conditions for a golf course, but we are holding up well.

The greens have been very soft with all the rain, and ball marks have been a problem out there. Please fix yours and if possible, one or two more while you wait to putt.

September is a busy month out there with outside tournaments as well as year end tournaments.

I would like to thank Evan Sibbick, who was with us for 5 years, as he has left to start an electrical apprenticeship. I would also like to thank Dan Bowden who has left for the season to get a hip replacement.

All in all, I hope that everyone had a great Summer and enjoy the Fall golf!

Member Spotlight: Meet Tom Myerscough

We recently sat down with seven day member Tom Myerscough. Tom has been a fixture around the Greens for many years, starting to play here when it was still Nanticoke Golf Club. Many may remember Tom from his years behind the starters desk from approximately 2012-2019. He was a popular volunteer always with a friendly smile and good humour.

Tom grew up down the road in Bealton, a small little hamlet you may have missed if you blinked while heading 15 mins north. Tom worked at Imperial Oil at Nanticoke as a technician and also did double duty on their facility fire department. Tom lives in Port Dover and is married to Mandy Myerscough and they have two children and 3 grandchildren. Toms wife Mandy ran Dovers Tan-Mar shop for 36 years and Tom was on the Port Dover Fire Department. Needless to say they were a committed family to the community of Port Dover.
